Summary

Final-year Computer Science student and ALX Data Science specialist with a strong emphasis on machine learning and predictive modelling. Demonstrate expertise in developing end-to-end data solutions, highlighted by a successful Stock Price Prediction Model. Proven ability to bridge technical gaps through hands-on ICT internship experience along with a commitment to advancing women's empowerment in the tech ecosystem. Eager to leverage skills and experiences to drive impactful data-driven decisions in a dynamic environment.

Education

Chuka University | B.Sc. Computer Science – Sep 2022-Present

- Final-year student focusing on software engineering and database management.

ALX Africa | Data Science Specialization – May 2025 – Present

- Pursuing intuitive professional training in Python, data analysis and machine learning.

Experience

National Cereals and Produce Board (NCPB) | ICT Intern – May 2025 – July 2025

- Managed high-volume data entry and digital record updates while assisting in maintenance of IT security protocols and cybersecurity practices.
- Supported daily ICT operations and server management, contributing to disaster recovery processes and ensuring 99% system uptime for various departments.
- Conducted hardware preventive maintenance and basic networking tasks, including the configuration of network devices and troubleshooting for complex system issues.

Skills

Programming: Python (Pandas, Numpy, Scikit-learn), SQL, Machine Learning, Exploratory Data Analysis (EDA).

Web Development: PHP (LAMP Stack), JavaScript, HTML5, CSS3, Database Management (MySQL).

Tools & Infrastructure: Git/GitHub, Linux, System Troubleshooting, Microsoft Office Suite.

Soft Skills: Technical Documentation, Problem-solving, Team Collaboration
